Otto WIEDERMANN was on the staff of Dr. Kurt Heinrich RIETH, German Minister in Tangier, at a time when fifty German agents from Tangier on a visit to Madrid were unable to return on account of Allied Traffic Control. WIEDERMANN is Press Attache and has travelled throughout the British Empire. He speaks fluent Arabic and often dresses as an Arab and has fomented much trouble in French Morocco. His wife is the daughter of Francisco MAWICK, German representative of the enormous Mannesmann Trust, which controls Nazi interests in Morocco.

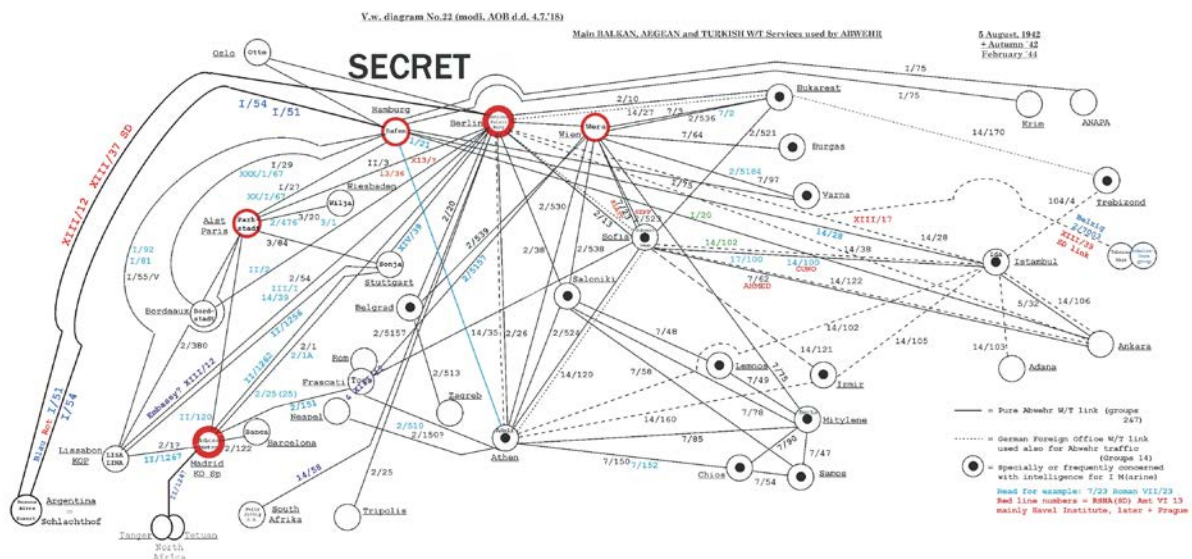

WIEDERMANN is seconded by KROLL, who before the war roamed South America posing as an artist and by small, swarthy GOERITZ, who often passes as a Spaniard.

Most significant Abwehr W/T links, the numbers used in British references are likely equalling the German designations. Always consisting of a “Roman number /arabic serial” sometimes also using Arabic number / Arabic numbering. The way this drawing has grown forced me to fill-in as much as possible; and herewith leaving the scale-versus-distance ratio. As, for instance the distance: Madrid - Tanger/Tetuan is much smaller than Madrid - Buenos Aires in Argentine. It might contain small errors, but its creation was pain-striking and very time consuming.

5.1.43. 27163 8.1.43. 49458 Tangier-Madrid. From DUPONT for DON II. V.Mann UNCAL has left our service. Therefore we are not interested in further payment. Oral discussion with DON I in DUPONT's presence on 8/1.

5.1.43. 49394 Tangier-Wiesbaden. CORTEZ to ALFONS for GERARD. Urgent. KRUSE, recently back from METRO, informed me on the 4th; KON closed down; it was almost certain that CORTEZ would be subordinated to him in the following manner: CORTEZ Stelle to be closed down, CORTEZ reports to go as KRUSE reports, CORTEZ V-Leute to be merged in KRUSE Stelle. For reasons known to GERARD incorporation on these terms is quite impracticable. Subordination to MORUNO of METRO as Stelle, whereby MORUNO or KRUSE would designate reports as CORTEZ reports providing for close collaboration with KRUSE and DUPONT in their territories, would be practicable. If this solution, which at least does justice to my position under GERARD and to the organisation I have built up, is not possible, I respectfully request to be relieved.

Difficulties are to be expected in employing BRINCKMANN in LISBON owing to her identity with the B. who was expelled from TANGIER. The former Spanish chauffeur of DUPONT, who is working for the American Embassy here, recently dropped hints to CIRO which showed that he is fully informed of the activity of DUPONT and his clerk in T. He also demanded in a blackmailing manner 7000 escudos which he alleges are still due to him. The American I.S. will seize upon the fact of its becoming known at once, especially as the Portuguese are expecting that no persons expelled from SPAIN will receive further employment in PORTUGAL. A substitute for CAVELLERO cannot at present be supplied from here. ALIZE II must take over the direction of Dienststelle BARNA. In order not to compromise ALIZE II anything which cannot be maintained in BARNA must be discontinued. ALIZE II must also take over AGNES network so far as possible. The attitude to be taken up with reference to the above message is as follows: 1) It is our opinion here that further attempts to retain CAVALLERO are useless. He will still be ill for some time. It is therefore to be avoided that breakdowns should occur as a consequence of a sudden rupture of relations. 2) It appears at this end advisable to keep JAIME and that indeed in agreement with VETTERN. 3) I ought to say that the inclusion of the VETTERN is by no means pointless for they have not got cold feet, but have only been powerless in many cases vis-à-vis BAER because the latter is their superior. 4) It will be discussed with A II how best he can attempt to utilise the forces situated in the area of Dienststelle MERCUR. 5) The AGNES network will probably be switched to METRO. The activity of A II seems to us too valuable to compromise him with it. 6) When referring to messages please do not quote the SABINE number but our number which occurs at the end of the message. VETTER IV ascertained through discussion with the LUTHERANER that a change seems to have come about in so far as the expulsion of CAVALLERO was neither desired by the LUTHERANER nor approved. According pressure obviously comes only from the EVANGELISCHER. VETTER IV is optimistic about the further work of CAVELLERO: he is even going to make a cover-domicile available. 2) From discussion which followed with VETTER I, it emerged that the latter, together with ONKEL, is making sharp representations to BAER with the object of exempting the whole ALIZE set-up removing them, completely from the expulsion list. Reason given is the semi-official incorporation of the ALIZE set-up into the AEM VETTER I and ONKEL are of the opinion that single actions are no longer opportune and would entail a dissipation of the forces available, since as a result of the advanced situation and dissension between the EVANGELISCHER and the LUTHERANER, a decision in principle on this subject is bound to ensue. VETTER I confirms that for the present the LUTHERANER no longer seem interested in expulsion. 3) Expulsion likewise already prolonged against A II, A II ordered to this end. - (AOB, this latter fact is in accordance with what I earlier have pointed at, that German diplomats were widely opposing the Intelligence services. Not dealt within this summary, but in the course of 1944, the Ambassador has ordered that the KO Services should leave the Embassy premises, and had to move to a site where they lacked diplomatic immunity. However, unlike their attitude, in some way or another they gained later some kind of protection. This discrepancy was being caused by the fact that the Foreign Office (Auswärtiges Amt) was acting nearly entirely independent of the other German Services. A not clear but apparent tru fact, is, that so-called "Vice Consuls" abroad were often engaged in intelligence matters than they were on the diplomatic front).
